# Transferring Credits

It's as easy as 1-2-3

## 1 Use This Guide

---

This Transfer Guide will give you a general idea of what to expect which courses can transfer over. Find your institution and the desired program you're interested in to see what types of courses can be expected to transfer over. Don't worry if your college or university is not listed in this guide, we take college credits from institutions all over the United States. Reach out to our registrar at [registrar@aultmancollege.edu](mailto:registrar@aultmancollege.edu) to see if your college/university is one of them.

## 2 Request an Unofficial Evaluation

The best way to find out how much transfer credit you will receive is to request an unofficial transfer credit evaluation.

Math and science courses require a B (3.0) or better with a completion date within seven (7) years of the semester date of the request. All other courses require a C (2.0) or better.

Transfer courses must match or exceed the semester credit-hour requirement for Aultman College courses. For example, 5.0 and 4.0 quarter credit-hour courses will be considered equivalent to a 3.0 semester credit-hour course.

To request your unofficial evaluation, please visit [www.aultmancollege.edu/transfer-students](http://www.aultmancollege.edu/transfer-students). To get the best possible evaluation please submit all transcripts (high school and colleges/universities attended) as well as any unencumbered healthcare licenses.

## 3 Apply

---

Fill out your application at [www.aultmancollege.edu/apply-now](http://www.aultmancollege.edu/apply-now).

# Kent State University

The chart below shows the potential of Kent State University transfer credits to Aultman College's programs and course equivalents. Locate your desired program, follow the path to the left, and see if Aultman College offers a course equivalent transfer. If a block is shaded there is no option for transfer for that course. Please see the Course Appendix for course names.
